

Amendments to the Glossary of the Sonoma County General Plan is amended to delete or replace certain definitions and add definitions in alphabetical order to read as shown below:

Agricultural Production Activities: Those activities directly associated with agriculture, but not including agricultural support services, processing, and visitor-serving uses. Activities include growing, harvesting, crop storage, milking, etc. Ancillary processing of cannabis grown on-site is considered an agricultural production activity because it does not change an agricultural product from its natural state to a different form, as grapes to wine, apples to juice or sauce, agricultural crops to extracted oils, etc.

Agricultural Support Services: Processing services, maintenance and repair of farm machinery and equipment, veterinary clinics, custom farming services, agricultural waste handling and disposal services, and other similar services. Processing of cannabis grown off-site (i.e., “centralized processing”) is considered an agricultural support service.

Controlled Agriculture or Controlled Agricultural Crop: A type of agriculture or agricultural crop that is subject to unique regulations but is included as agriculture (agricultural crop) in all General Plan agricultural policies unless stated otherwise. Cannabis is the only crop defined as a controlled agricultural crop. Cannabis does not include "industrial hemp" as defined by Section 81000 of the California Food and Agricultural Code.
