Subject: Survey at Vacation Beach, adjacent to the Russian River

Dear Colleagues:

Thank you for taking the time to meet with California State Lands Commission (Commission) staff last October regarding the survey of the Russian River at Vacation Beach and the public access issues. Staff has now completed the survey locating the ordinary high water mark (high water) of the Russian River adjacent to Sonoma County Assessor's Parcel Numbers (APN) 071-220-018, 071-220-019, 071-220-020, 071-220-067, and 071-220-068, located in Guerneville, Sonoma County.

The Commission has jurisdiction and management authority over all ungranted tidelands, submerged lands, and the beds of navigable lakes and waterways. The Commission also has certain residual and review authority for tidelands and submerged lands legislatively granted in trust to local jurisdictions (PRC §6301 and §6306). All tidelands and submerged lands, granted or ungranted, as well as navigable lakes and waterways, are subject to the protections of the common law Public Trust Doctrine.

As general background, California acquired sovereign ownership of all tidelands and submerged lands and beds of navigable lakes and waterways upon its admission to the United States in 1850. The State holds these lands for the benefit of all people of the State for statewide Public Trust purposes, which include but are not limited to waterborne commerce, navigation, fisheries, water-related recreation, habitat preservation, and open space. On tidal waterways, the State's sovereign fee ownership extends landward to the mean high tide line, except for areas of fill or artificial accretion or where the boundary has been fixed by agreement or court decision. On navigable non-tidal waterways, including lakes and rivers, the State holds fee ownership of the bed of the waterway landward to the ordinary low water mark and a Public Trust easement landward to high water, except where the boundary has been fixed by agreement or court decision. Such boundaries may not be readily apparent from present day site inspections.

As we discussed in our meeting, the Russian River, at the subject locations, is a navigable and possibly tidal waterway and, therefore is State sovereign land under the jurisdiction of the Commission. Because of concerns raised by property owners, local residents, and municipalities regarding public access at this location, Commission staff conducted a survey to determine the location of high water. While staff has not made a final determination as to whether this section of the river is tidally-influenced, the bed of the river below high water is within the Commission's jurisdiction and subject to the Public Trust Doctrine.

Commission surveyors completed a field survey at Vacation Beach adjacent to APNs 071-220-018, 071-220-019, 071-220-020, 071-220-067, and 071-220-068 on July 26, 2016 with a follow-up field survey on August 29, 2016. Based on the field survey data, Commission staff determined that high water is located at Elevation 27.35 feet, NAVD88, as shown on the enclosed topographic survey maps dated December 20, 2016. The determination of high water is based upon analysis of the best evidence known to Commission staff at the time of the survey and as the maps were being prepared. Evidence presented to Commission staff that may indicate a more accurate position of high water with respect to any specific parcel is welcome and will be carefully considered.

We have sent information on the survey and a copy of the topographic survey maps to the owners of the above-mentioned parcels and the local residents who expressed concerns over structures blocking public access along the river. We encourage all interested parties to contact Commission staff to verify whether updates have been made.

The bed of the Russian River lying below high water is subject to the Public Trust Doctrine. It is a violation of the Public Trust Doctrine for the land below high water to be used in a way that is incompatible with the Public Trust needs of the public. Any unauthorized improvements or nuisance within lands subject to the Public Trust may discourage and possibly violate the rights of the public to access the Russian River at this location.

Under California law, the State may require removal of any nuisance or illegal obstruction on lands subject to the Public Trust. The State is not required to compensate for removal of these improvements if the improvements were made without obtaining the requisite permits consistent with the law. Any party seeking to construct improvements on the area lying below high water at the subject location must contact the Commission to request a statement that the proposed use is consistent with Public Trust needs. *State of California v. Superior Court of Lake County (Lyon)*, 29 Cal. 3d 210, 219; *State of California, et al. v. Superior Court of Placer County (Fogerty I)*, 29 Cal. 3d 240 (1981).

In addition, the Russian River at this location, is subject to a public navigation easement. This easement provides that members of the public have the right to navigate and exercise the incidences of navigation in a lawful manner on State waters that are capable of being physically navigated by oar or motor-propelled small craft. Such uses may include, but not be limited to, boating, rafting, sailing, rowing, fishing, fowling, bathing, skiing, and other water-related public uses. The easement right of the public must not be restricted or impeded.

This conclusion is without prejudice to any future assertion of State ownership or public rights, should circumstances change, or should additional information come to our attention. This letter is not intended, nor should it be construed as, a waiver or limitation of any right, title, or interest of the State of California in any lands under its jurisdiction.

If you have any questions, please contact Public Land Manager, Ninette Lee, at (916) 574-1900.

Sincerely,

Brian Bugsch, Chief
Land Management Division

VERTICAL BENCHMARK

THE VERTICAL BENCHMARK FOR THIS SURVEY IS NATIONAL GEODETIC SURVEY STATION HPGN D CA 04 RS (PID JT9634). THE ELEVATION OF THIS POINT IS TAKEN TO BE 61.72' NAVD 88. THIS ELEVATION IS BASED ON THE ORTHOMETRIC HEIGHT ADJUSTMENT (NAVD88) ELEVATION PUBLISHED IN THE CENTRAL COAST HEIGHT MODERNIZATION PROJECT 2007.

BASIS OF BEARINGS

THE BASIS OF BEARINGS FOR THIS SURVEY IS THE CALIFORNIA COORDINATE SYSTEM, CCS83, ZONE 2 (EPOCH 2011.00) AS DETERMINED LOCALLY BY A LINE BETWEEN CONTINUOUS GLOBAL POSITIONING SYSTEMS (CGPS) STATIONS REFERENCE STATIONS (CORS) P196 AND P197 BEING N 8° 01' 13" W AS DERIVED FROM GEODETIC VALUES PUBLISHED BY THE CALIFORNIA SPATIAL REFERENCE CENTER (CSRC). NOTES

1) CSLC MEAN HIGH WATER SURVEY BASED ON CALCULATED MHW ELEVATIONS USING THREE DIFFERENT SCENARIOS. THE FIRST SCENARIO USED THE UPPER 25% OF HOURLY HIGH WATER ELEVATIONS FOR 2015 - 2016 YEARS (27.35'). THE SECOND SCENARIO USED THE UPPER 10% OF HOURLY HIGH WATER ELEVATIONS FOR 2015 - 2016 YEARS (32.24'). THE THIRD SCENARIO USED THE HIGHEST ANNUAL FLOW ELEVATIONS (BELOW THE GAUGE PUBLISHED FLOOD LEVEL) OVER THE LAST 19 YEAR PERIOD (39.95'). ELEVATIONS WERE OBTAINED FROM U.S.G.S. GAUGE STATION LOCATED AT GUERNEVILLE BRIDGE (GVB). THE FIRST SCENARIO (ELEVATION 27.35') MATCHED UP WITH THE CURRENT VEGETATION LINE ADJACENT TO VACATION BEACH. THIS ELEVATION WAS USED FOR THE PURPOSE OF THIS SURVEY, AS A BEST REPRESENTATION OF THE ORDINARY HIGH WATER MARK AT VACATION BEACH. WATER SURFACE AT VACATION BEACH MEASURED 16.29' NAVD88 ON 7/26/2016 AT 8:24 AM. THE GUERNEVILLE GAUGE (GVB) INDICATED WATER SURFACE WAS 8.34' (GAUGE DATUM), 19.92' NAVD88 AT 8AM THE SAME DAY. A SEASONAL SWM DAM WAS IN PLACE ON THIS DAY BETWEEN STATION GVB AND VACATION BEACH. THE DAM MEASURED TO BE 2.8' HIGH. TAKING THIS 2.8' INTO CONSIDERATION, IT IS ESTIMATED THAT THERE IS A 83' DIFFERENCE BETWEEN GAUGE HEIGHT AND WATER ELEVATION AT VACATION BEACH. THIS 83' WAS SUBTRACTED FROM THE CALCULATED HW ELEVATION. MHW HORIZONTAL AND VERTICAL LOCATIONS DETERMINED BY FAST STATIC GPS OBSERVATIONS POST PROCESSED AGAINST CSRC STATIONS SHOWN ON THE HORIZONTAL CONTROL PLAN, AND THE BENCH MARK REFERENCED ON SHEET 1.

2) THE UNITS FOR ALL COORDINATES AS SHOWN ARE US SURVEY FEET, UNLESS OTHERWISE NOTED.

3) AERIAL PHOTOGRAPHY PER APRIL 2011 U.S. GEOLOGICAL SURVEY HIGH RESOLUTION ORTHOIMAGERY FOR SONOMA COUNTY, CALIFORNIA. THE AERIAL IMAGERY SHOWN HEREON IS SHOWN FOR GENERAL REFERENCE PURPOSES ONLY.

4) THIS PLAT HAS NOT BEEN APPROVED BY THE STATE LANDS COMMISSION AND DOES NOT CONSTITUTE AN OFFICIAL PLAT OF SUCH COMMISSION. NOR DOES IT ESTABLISH THE BOUNDARY LINES OR LIMITATIONS OF ANY STATE-OWNED LANDS DEPICTED HEREON. THIS PLAT CONSTITUTES A PRELIMINARY STAFF-USE-ONLY PLAT NOT INTENDED FOR PUBLIC USE/CONSUMPTION AND IS SUBJECT TO CHANGE. THE PRELIMINARY NATURE OF THIS PLAT WOULD NOT REQUIRE SUBMITTAL OR RECORDATION PURSUANT TO B&PC 8762.

5) THE BOUNDARY BETWEEN STATE SOVEREIGN LAND AND THE UPLAND OWNER IS DEFINED BY CALIFORNIA CIVIL CODE §8307, WHEN IT BORDERS UPON A NAVIGABLE LAKE OR STREAM, WHERE THERE IS NO TIDE. THE OWNER TAKES TO THE EDGE OF THE LAKE OR STREAM, AT LOW-WATER MARK. IN ADDITION, A RETAINED PUBLIC TRUST EASEMENT EXISTS OVER THE LANDS BETWEEN HIGH AND LOW WATER AS DESCRIBED IN PEOPLE V. SUPERIOR COURT (LYON), 29 CAL 3D 210 (1981), IN PEOPLE V. SUPERIOR COURT (FOGERTY), 29 CAL 3D 240 (1981) AND IN BESS V. COUNTY OF HUMBOLDT, 3 CAL APP. 4TH 1544 (1992).

6) THE HIGH WATER LINE AS SHOWN HEREON IS BASED UPON ANALYSIS OF THE BEST EVIDENCE KNOWN TO THE STAFF OF THE STATE LANDS COMMISSION AT THE TIME OF THIS SURVEY AND AS THESE MAPS WERE BEING PREPARED. EVIDENCE PRESENTED TO THE COMMISSION OR ITS STAFF THAT MAY INDICATE A MORE ACCURATE POSITION OF THE HIGH WATER LINE WITH RESPECT TO ANY SPECIFIC PARCEL IS WELCOME AND WILL BE CAREFULLY CONSIDERED. INTERESTED PARTIES SHOULD CONTACT THE STAFF OF THE STATE LANDS COMMISSION TO VERIFY WHETHER ANY UPDATES HAVE BEEN MADE.

To whom it may concern,

The property in question, located at 17448 River Lane, Vacation Beach, Guerneville, Ca, was previously owned by my family since the early 1900's until 1953 when it was then sold to Citizens Utility. It has always been used as a right-away for anyone who lived at Vacation Beach so that they could access the beach for recreation.

To whom it may concern,

My name is Richard Deering and I have lived in the Russian River since 1966. The property at 17448 River Lane, Guerneville, Ca has been open to the public since I've been a resident. In addition, it has been open to the public since the 1940's.

Thank you,

Richard Deering

I am 66 years old. My parents, my friends and I and my sister and her children have been using the beach access since 1955. We would like to see the beach access remain as "public". We have never had a problem with denial of access in the past.

Attached are just a few pictures that show our times on the beach. We would like to have the access to this special place continue for us and for future generations. Thank you!

I was very disturbed to hear that access to the "Little Beach" at Vacation Beach is in jeopardy of being denied to the public.

I have been using this beach since 1955. I am 70 years old. I have many wonderful memories enjoying this beach as a child with my parents. My husband and I vacationed at Vacation Beach every summer and brought our children there. Although I have moved out of the Bay Area, I still go to the Russian River every summer and enjoy the "Little Beach" with my grandchildren.

I would hate to see public access suddenly denied after so many years.

Thank you for your consideration.

To Whom It May Concern:

Little Beach and the access area has been part of our family for over 60 years! As children, our grandparents and parents took us up there every summer for 2 months or more. We grew up swimming and playing at this beautiful little beach. We have also taken our children, who have taken their children to this wonderful place. We have many generations (5 at this point) of memories. The special smell of the plants and sand are etched in our memories even to this day! Access to this beach was very important to us since we carried our swimming mats, towels, umbrella and picnic snacks down the path to enjoy a wonderful day at the beach. The friends that we met there have been a part of our lives even to this day. It is a small area, but the happiness it brought us as children is priceless! We totally support Sweetwater Springs selling that area to the Russian River Recreation and Parks so that we know the traditions of many generations will continue in the future so that all can enjoy!

Thank you so much and the best of luck!

Dear Susan,

It has been brought to my attention that the "Little Beach", as we call it, is in danger of being closed off for use by the public. I have been coming to this beach since a child growing up at vacation beach (born in 1946). Now even though I live in Colorado, my family still resides there and I come each summer on vacations. I have seen river access cut off as people purchase properties (Aldos, the Russian River Inn - all had beautiful beaches open to the public when I was growing up and are no longer available for people to use).

I feel we need to fight for the public use of land that has been traditionally open and not let it be closed.

Thank you for your consideration.

To whom it may concern:

I am writing because I am concerned about the situation with the access to the beach on Vacation Beach on the Russian river.

My husband and I bought the property on Vacation Beach in 1951 and I own it still. Our family has been going to that beach ever since, that means my children my grandchildren and their many friends.

It is impossible to imagine being at the river and not having access to the river. Nature has given us this beautiful river and the access to it should not be limited to those who own a river front property. We always used the easement along the water company property not realizing it was private property. In older days there was a water pumping tower but it did not deter us from using that easement. In those days there was no actual trail, we were using the cascading rocks of the brook which in summer was dry. It was only comparatively recently that a trail has appeared through the bushes and blackberry growth.

Please do everything possible to keep this beach accessible to the public. Thank you for your efforts and we look forward to visiting the beach again next season.

Respectfully,

Xenia Zabelin

To whom it may concern,

My name is John Harreld, and I have been a homeowner and full time resident in the Vacation Beach area of Guerneville for over 15 years. Throughout this time and without interruption or exception, my experience has been that the path running from River Lane to the public trust beach on the Russian River has been available to myself and the general public to use as a means to access the river. My understanding is that the lot through which the access trail runs corresponds to APN # 071-220-068, currently owned by Sweetwater Springs Water District.

This beach and river access trail is very important resource to full-time locals as well as vacation renters, and my opinion is that the use of this property should remain as it has been for many decades, regardless of current or future ownership of the lot.

John Harreld

Dear Russian River Recreation and Parks District,

I am writing to you regarding the Sweetwater Springs parcel that allows access to beach foot trail to the Russian River in the Vacation Beach neighborhood.

I understand the Sweetwater Springs may be selling the parcel and permission to use the trail may not be possible depending on the new land owners.

Our family has owned our home at 17754 Orchard Avenue since the 1930's. I am writing on behalf of myself, my Mother and Brother who have been using the trail from River Lane down to the Russian River Beach/riverbank every Summer our entire lives (over 50 years).

In the 1970's and 1980's the access was wider, full of boulders and to the right of the current, safer path. My father used to tie up his boat at the beach and we would swim, float, fish or take the boat for a ride. The tradition continue today with my nephews who search for rocks to skip and minnows to capture.

Personally we have never had a uncomfortable or bad experience using the trails or the beach. Even on days when the beach areas are full, everyone is kind and just enjoying a day at the river. I do hope we will be able to continue to access the river using the trail.

If you have any questions or would like any additional information, please do not hesitate to reach out. We do not rent our home (long or short-term) and have always felt like the trail was our neighborhood gem.

Sincerely,

Laura, Sharon, Matt (and family) Giffether

To Whom it may concern:

My family has been visiting and enjoying the beach at River Lane in Guerneville since the summer of 2000 right after we moved to Guerneville. We moved to Orchard Avenue in Vacation Beach in 2003 and this became our main beach. Our neighborhood beach was a big factor in choosing our home, and we have spent many days picnicking, napping, paddling and swimming there. We look forward to seeing our neighbors, vacationers, and members of the public who have discovered this treasure, and to paddling with many of them. It is our understanding that this access has been here for a very long time.

We access the beach via the path on the Sweetwater Springs property (at the fishing sign). This path has always been available to us, and we have never received any notice to the contrary. We usually carry our kayaks or paddleboards down the path too, so that we can explore the river. We have searched up and down the river, and have discovered limited public access paths to the beach, and very few that are safe and easy to negotiate when carrying a kayak or paddleboard. Our public access is a rare treasure.

It is in the public interest to maintain access to safe neighborhood entry points to the river. The river and our public beach have drawn homeowners and vacationers like us to our region and neighborhood for over 100 years, and we understand from our neighbors who have been in the area for generations that this beach access has always been public. It is the responsibility of elected officials to protect the public interest by ensuring any land sale protects public access to our beach in perpetuity, so that future generations of vacationers and homeowners can continue to enjoy this natural resource.

There is no question that this beach itself is available to the public as I have seen the study by the California Lands Commission. This is purely a question of access and the parcel currently owned by Sweetwater Springs Water District has provided that access for a very long time. It is the perfect thing for the Parks Department to acquire this parcel so that the neighborhood and the public can enjoy this gem of a beach now and in the future.

My name is Angelina T. Lavroushin. I am 83 years old and three generations of my family have enjoyed the Russian River beach which appears to be in danger of being closed to the public.

When my four children were young, we spent every summer at Russian River, renting a small cabin and enjoying swimming and playing at this beach.

Every evening groups of families walked up and down Orchard Ave, socializing and having fun. Many long-term friendships were formed there and still exist today.

My daughters continued the tradition and brought their children to the same beach.

It seems unfair that one person can deprive so many of the pleasure of enjoying the beauty of the River, the surrounding mountains and this wonderful beach.

Please keep it open to the public and the future generations to enjoy

Dear Board of Directors,

Sweetwater Springs Water District (SSWD) owns a parcel on 17448 River Lane, Guerneville, CA that the Russian River Recreation and Parks District (RRR&PD) desires to purchase. This lot is located in the Vacation Beach area and the lot borders the Russian River. The lot was the site of a groundwater well that SSWD purchased with all other Citizens Utilities property in 1992. Historically, and to our knowledge certainly from 1992 to present, the lot has been used as a neighborhood pathway to Vacation Beach and the Russian River.

NOTES

1) CSLC MEAN HIGH WATER SURVEY BASED ON CALCULATED MHW ELEVATIONS USING THREE DIFFERENT SCENARIOS. THE FIRST SCENARIO USED THE UPPER 25% OF HOURLY HIGH WATER ELEVATIONS FOR 2015 - 2016 YEARS (27.35'). THE SECOND SCENARIO USED THE UPPER 10% OF HOURLY HIGH WATER ELEVATIONS FOR 2015 - 2016 YEARS (32.24'). THE THIRD SCENARIO USED THE HIGHEST ANNUAL FLOW ELEVATIONS (BELOW THE GAUGE PUBLISHED FLOOD LEVEL) OVER THE LAST 19 YEAR PERIOD (35.95'). ELEVATIONS WERE OBTAINED FROM U.S.G.S. GAUGE STATION LOCATED AT GUERNEVILLE BRIDGE (GVB). THE FIRST SCENARIO (ELEVATION 27.35') MATCHED UP WITH THE CURRENT VEGETATION LINE ADJACENT TO VACATION BEACH. THIS ELEVATION WAS USED FOR THE PURPOSE OF THIS SURVEY, AS A BEST REPRESENTATION OF THE ORDINARY HIGH WATER MARK AT VACATION BEACH. WATER SURFACE AT VACATION BEACH MEASURED 16.29' NAVD88 ON 7/26/2016 AT 8:24 AM. THE GUERNEVILLE GAUGE (GVB) INDICATED WATER SURFACE WAS 8.34' (GAUGE DATUM), 19.92' NAVD88 AT 8AM THE SAME DAY. A SEASONAL SWM DAM WAS IN PLACE ON THIS DAY BETWEEN STATION GVB AND VACATION BEACH. THE DAM MEASURED TO BE 2.8' HIGH. TAKING THIS 2.8' INTO CONSIDERATION, IT IS ESTIMATED THAT THERE IS A 83' DIFFERENCE BETWEEN GAUGE HEIGHT AND WATER ELEVATION AT VACATION BEACH. THIS 83' WAS SUBTRACTED FROM THE CALCULATED HW ELEVATION. MHW HORIZONTAL AND VERTICAL LOCATIONS DETERMINED BY FAST STATIC GPS OBSERVATIONS POST PROCESSED AGAINST CSRC STATIONS SHOWN ON THE HORIZONTAL CONTROL PLAN, AND THE BENCH MARK REFERENCED ON SHEET 1.

2) THE UNITS FOR ALL COORDINATES AS SHOWN ARE US SURVEY FEET, UNLESS OTHERWISE NOTED.

3) AERIAL PHOTOGRAPHY PER APRIL 2011 U.S. GEOLOGICAL SURVEY HIGH RESOLUTION ORTHOIMAGERY FOR SONOMA COUNTY, CALIFORNIA. THE AERIAL IMAGERY SHOWN HEREON IS SHOWN FOR GENERAL REFERENCE PURPOSES ONLY.

4) THIS PLAT HAS NOT BEEN APPROVED BY THE STATE LANDS COMMISSION AND DOES NOT CONSTITUTE AN OFFICIAL PLAT OF SUCH COMMISSION. NOR DOES IT ESTABLISH THE BOUNDARY LINES OR LIMITATIONS OF ANY STATE-OWNED LANDS DEPICTED HEREON. THIS PLAT CONSTITUTES A PRELIMINARY STAFF-USE-ONLY PLAT NOT INTENDED FOR PUBLIC USE/CONSUMPTION AND IS SUBJECT TO CHANGE. THE PRELIMINARY NATURE OF THIS PLAT WOULD NOT REQUIRE SUBMITTAL OR RECORDATION PURSUANT TO B&PC 8762.

5) THE BOUNDARY BETWEEN STATE SOVEREIGN LAND AND THE UPLAND OWNER IS DEFINED BY CALIFORNIA CIVIL CODE §8307, WHEN IT BORDERS UPON A NAVIGABLE LAKE OR STREAM, WHERE THERE IS NO TIDE. THE OWNER TAKES TO THE EDGE OF THE LAKE OR STREAM, AT LOW-WATER MARK. IN ADDITION, A RETAINED PUBLIC TRUST EASEMENT EXISTS OVER THE LANDS BETWEEN HIGH AND LOW WATER AS DESCRIBED IN PEOPLE V. SUPERIOR COURT (LYON), 29 CAL 3D 210 (1981), IN PEOPLE V. SUPERIOR COURT (FOGERTY), 29 CAL 3D 240 (1981) AND IN BESS V. COUNTY OF HUMBOLDT, 3 CAL APP. 4TH 1544 (1992).

6) THE HIGH WATER LINE AS SHOWN HEREON IS BASED UPON ANALYSIS OF THE BEST EVIDENCE KNOWN TO THE STAFF OF THE STATE LANDS COMMISSION AT THE TIME OF THIS SURVEY AND AS THESE MAPS WERE BEING PREPARED. EVIDENCE PRESENTED TO THE COMMISSION OR ITS STAFF THAT MAY INDICATE A MORE ACCURATE POSITION OF THE HIGH WATER LINE WITH RESPECT TO ANY SPECIFIC PARCEL IS WELCOME AND WILL BE CAREFULLY CONSIDERED. INTERESTED PARTIES SHOULD CONTACT THE STAFF OF THE STATE LANDS COMMISSION TO VERIFY WHETHER ANY UPDATES HAVE BEEN MADE.

Subject: Jurisdictional Determination in the Russian River, adjacent to Assessor's Parcel Numbers 071-220-018, 071-220-019, and 071-220-067, near Guerneville, Sonoma County

Dear Ms. MacDonell:

This letter is in response to your request for a determination by the California State Lands Commission (CSLC) as to whether it asserts a sovereign title interest in the Russian River adjacent to the above-mentioned parcels.

The CSLC has jurisdiction and management authority over all ungranted tidelands, submerged lands, and the beds of navigable lakes and waterways. The CSLC also has certain residual and review authority for tidelands and submerged lands legislatively granted in trust to local jurisdictions (PRC §6301 and §6306). All tidelands and submerged lands, granted or ungranted, as well as navigable lakes and waterways, are subject to the protections of the Common Law Public Trust.

As general background, the State of California acquired sovereign ownership of all tidelands and submerged lands and beds of navigable lakes and waterways upon its admission to the United States in 1850. The State holds these lands for the benefit of all people of the State for statewide Public Trust purposes, which include but are not limited to waterborne commerce, navigation, fisheries, water-related recreation, habitat preservation, and open space. On tidal waterways, the State's sovereign fee ownership extends landward to the mean high tide line, except for areas of fill or artificial accretion or where the boundary has been fixed by agreement or court decision. On navigable non-tidal waterways, including lakes and rivers, the State holds fee ownership of the bed of the waterway landward to the ordinary low water mark and a Public Trust easement landward

to the ordinary high water mark, except where the boundary has been fixed by agreement or court decision. Such boundaries may not be readily apparent from present day site inspections.

The Russian River, at the subject location, is State sovereign land under the jurisdiction of the CSLC; however, the extent of the State's sovereign interest has not been determined. Based upon a preliminary review of our in-house records, we have determined that the State has a sovereign interest in the bed of the Russian River to the low water mark. A claim to the high water mark of the Russian River could not be determined upon review of our in-house records. Development of information sufficient to make such a determination would require extensive research. Given the limited resources of this agency, the expenditure of time, effort and money for additional research is not warranted in this situation without reimbursement.

Staff reviewed the deeds for the subject parcels and found that APNs 071-220-018 and 071-220-019 have littoral calls to the low water line. The deed for APN 071-220-067 calls to the centerline of the Russian River adjacent to APNs 071-220-018 and 071-220-019. Because the State has a sovereign interest in the Russian River adjacent to these two parcels, the State's ownership would extend over APN 071-220-067 to the minimum location of the low water mark. Therefore, based on staff's review, it does not appear that APN 071-220-067 would have an interest waterward of APNs 071-220-018 and 071-220-019.

The Russian River, at the subject location, is subject to a public navigation easement. This easement provides that members of the public have the right to navigate and exercise the incidences of navigation in a lawful manner on State waters that are capable of being physically navigated by oar or motor-propelled small craft. Such uses may include, but not be limited to, boating, rafting, sailing, rowing, fishing, fowling, bathing, skiing, and other water-related public uses. The proposed project must not restrict or impede the easement right of the public.

This conclusion is without prejudice to any future assertion of state ownership or public rights, should circumstances change, or should additional information come to our attention. This letter is not intended, nor should it be construed as, a waiver or limitation of any right, title, or interest of the State of California in any lands under its jurisdiction.

Dear Paige,

As a follow-up to your call last week, you have requested clarification on the field survey completed by our surveyors at Vacation Beach on July 26, 2016. Our surveyors also completed a follow-up survey at Vacation Beach on August 29, 2016. The plat that we sent to you and other local agencies and interested parties on March 7, 2017, as prepared, is preliminary in nature. A licensed surveyor cannot fix a boundary. The plat represents a claim that the California State Lands Commission (Commission) would or could make. The plat has also not been approved by the Commission, which is why Note #4 was left on it. That being said, as of now, what is shown on the plat represents what Commission staff believe to be the State's interest at that location.

In addition, you have requested clarification regarding language in our letter to you dated October 17, 2014. Below I have copied the questions from your email with our

explanation in blue.

1. In the letter it is stated “state’s ownership would extend over APN 071-220-067 to minimum location of the low water mark”. Does this mean the public has the right to cross that property from 17448 River Ln to get to the river?

Based upon a preliminary review of our in-house records, we determined that the State has an ownership interest in the bed of the Russian River extending to the ordinary low-water mark (OLWM) at this location. The deed for APN 071-220-067 calls to the center of the Russian River and includes land that we determined is owned by the State. Given this information and also because a Public Trust easement exists at this location between the ordinary high- and low-water marks, the public would not be trespassing on APN 071-220-067 if they accessed the river via 17448 River Lane (APN 071-220-068) and remained below the ordinary high water mark. However, the public does not have a right to cross the portion of the property above the ordinary high-water mark unless the upland owner grants them permission.

2. In addition please clarify the following sentence “therefore, based on staff’s review, it does not appear that APN 071-220-067 would have an interest water ward of APNs 071-220-018 and 071-220-019”. What does this mean?

As stated above, we determined the State owns the bed of the Russian River to the OLWM. We have not conducted a survey to determine the location of OLWM at this location but we reviewed the deeds for APNs 071-220-018 and 071-220-019 and both include calls to the low water line. The State’s ownership would extend beginning at this point into the Russian River. Please note this review was based on a preliminary review of our in-house records. An extensive study of this area, including field surveys and archival research, would be necessary to determine the exact nature and extent of the State’s interest. Due to limited staff and funding, conducting such a study is not possible within the foreseeable future.

Feel free to contact me if you have any additional questions.

Sincerely,

Ninette

Hi Ninette,

Please see attached correspondence from State Lands on 10/17/14. I would like confirmation that I’m reading this correctly.

VIA REGULAR MAIL & EMAIL

Subject: Survey at Vacation Beach, adjacent to the Russian River

Dear Mr. and Mrs. O'Flynn:

In July 2016 Commission staff conducted a field survey of the ordinary high water mark (high water) of the Russian River adjacent to Assessor's Parcel Numbers (APN) 071-220-018, 071-220-019, 071-220-020, 071-220-067, and 071-220-068, located in Guerneville, Sonoma County. Using the information from the field survey and other available data, Staff prepared a topographic survey dated December 20, 2016 and determined that the available evidence indicated that high water was located at Elevation 27.35 feet, NAVD88. The 2016 Commission Staff survey was preliminary in nature and intended for staff use. However, due to the significant interest in the information, Commission staff shared the survey, which included a note:

"This plat has not been approved by the State Lands Commission and does not constitute an official plat of such Commission. Nor does it establish the boundary lines or limitations of any state-owned lands depicted hereon. This plat constitutes a preliminary staff-use-only plat not intended for public use/consumption and is subject to change. The preliminary nature of this plat would not require submittal or recordation pursuant to B&PC 8762."

In January 2020, staff received a memorandum from interested parties. The memorandum provided additional information that staff had not been aware of at the time of the 2016 survey. Staff have learned of additional factors since 2016 that have influenced staff's opinion, including: a seasonal dam downstream, a scour line on the opposite bank, a small grove of trees just downriver, and an ordinary high water mark determination recently done by a third party biologist (Prunuske Chatham, Inc.) for an unrelated project upstream (Guerneville River Park).¹ As a result, staff further analyzed the subject property in light of the new information and consulted additional sources to resolve the issues raised by the memorandum. In doing so, staff determined that the 2016 survey should be

revised to best reflect the current high water at the subject property based on the best available data and science. Given the complexity of the area, staff found that the high water line at this location was most accurately reflected in a range of elevations.

Incorporating the new information and the additional analysis into prior work, staff determined that high water is located between an Elevation of 17.8 and 20.7 feet, NAVD88 at the subject property. This determination of high water is based upon analysis of the best evidence known to staff at this time. It is important to understand the limitations of what an ordinary high water survey shows in this situation. At this location, the State holds sovereign fee ownership of the riverbed up to the low water mark and a Public Trust easement landward to the high water.¹ The Russian River lying below high water is subject to the Public Trust Doctrine. And it is a violation of the Public Trust Doctrine for the land below high water to be used in a way that is incompatible with the Public Trust needs of the public.

The boundary between state ownership and private ownership has not been fixed by agreement or court decision at this location. This means that the boundary line is ambulatory and subject to change. While the high water survey does indicate the Public Trust boundary line at a specific moment in time, the survey does not fix that boundary and the State's band of ownership may naturally migrate landward or waterward of its current location over the course of time.

While it may be legal, subject to local permitting rules and regulations, for a private landowner to post signs to exclude members of the public from accessing their private property landward of the ordinary high water line, caution should be exercised in placing improvements on lands that may be submerged in the future. The Russian River is susceptible to severe seasonal flooding and climate change events. Private improvements can become hazards when submerged and may impede navigation and public access or be dislodged and impact public lands and resources. Additionally, as the high water line migrates landward, any permanent improvements existing within that natural migration may unlawfully trespass on the state's sovereign land.

In addition, the Russian River at this location is subject to a public navigation servitude—a principle of the Commerce Clause of the United States Constitution.²

provides that members of the public have the right to navigate and exercise the incidences of navigation in a lawful manner on State waters that are capable of being physically navigated by oar or motor-propelled small craft, regardless of the underlying fee ownership. Such uses include, but are not limited to, boating, rafting, sailing, rowing, fishing, fowling, bathing, skiing, and other water-related public uses. The rights of the public to use the navigation servitude must not be restricted or impeded. Placement of improvements in areas that might become submerged would unlawfully impede the navigation servitude and could create hazards. Staff's conclusions, based on the totality of information it has developed or reviewed, are without prejudice to any future assertion of State ownership or public rights, should circumstances change, or should additional information come to the Commission's attention. This letter is not intended, nor should it be construed as, a waiver or limitation of any right, title, or interest of the State of California in any lands under its jurisdiction.

Subject: Jurisdictional Determination in the Russian River, adjacent to Assessor's Parcel Numbers 071-220-018, 071-220-019, and 071-220-067, near Guerneville, Sonoma County

Dear Ms. MacDonell:

This letter is in response to your request for a determination by the California State Lands Commission (CSLC) as to whether it asserts a sovereign title interest in the Russian River adjacent to the above-mentioned parcels.

The CSLC has jurisdiction and management authority over all ungranted tidelands, submerged lands, and the beds of navigable lakes and waterways. The CSLC also has certain residual and review authority for tidelands and submerged lands legislatively granted in trust to local jurisdictions (PRC §6301 and §6306). All tidelands and submerged lands, granted or ungranted, as well as navigable lakes and waterways, are subject to the protections of the Common Law Public Trust.

As general background, the State of California acquired sovereign ownership of all tidelands and submerged lands and beds of navigable lakes and waterways upon its admission to the United States in 1850. The State holds these lands for the benefit of all people of the State for statewide Public Trust purposes, which include but are not limited to waterborne commerce, navigation, fisheries, water-related recreation, habitat preservation, and open space. On tidal waterways, the State's sovereign fee ownership extends landward to the mean high tide line, except for areas of fill or artificial accretion or where the boundary has been fixed by agreement or court decision. On navigable non-tidal waterways, including lakes and rivers, the State holds fee ownership of the bed of the waterway landward to the ordinary low water mark and a Public Trust easement landward

to the ordinary high water mark, except where the boundary has been fixed by agreement or court decision. Such boundaries may not be readily apparent from present day site inspections.

The Russian River, at the subject location, is State sovereign land under the jurisdiction of the CSLC; however, the extent of the State's sovereign interest has not been determined. Based upon a preliminary review of our in-house records, we have determined that the State has a sovereign interest in the bed of the Russian River to the low water mark. A claim to the high water mark of the Russian River could not be determined upon review of our in-house records. Development of information sufficient to make such a determination would require extensive research. Given the limited resources of this agency, the expenditure of time, effort and money for additional research is not warranted in this situation without reimbursement.

Staff reviewed the deeds for the subject parcels and found that APNs 071-220-018 and 071-220-019 have littoral calls to the low water line. The deed for APN 071-220-067 calls to the centerline of the Russian River adjacent to APNs 071-220-018 and 071-220-019. Because the State has a sovereign interest in the Russian River adjacent to these two parcels, the State's ownership would extend over APN 071-220-067 to the minimum location of the low water mark. Therefore, based on staff's review, it does not appear that APN 071-220-067 would have an interest waterward of APNs 071-220-018 and 071-220-019.

The Russian River, at the subject location, is subject to a public navigation easement. This easement provides that members of the public have the right to navigate and exercise the incidences of navigation in a lawful manner on State waters that are capable of being physically navigated by oar or motor-propelled small craft. Such uses may include, but not be limited to, boating, rafting, sailing, rowing, fishing, fowling, bathing, skiing, and other water-related public uses. The proposed project must not restrict or impede the easement right of the public.

This conclusion is without prejudice to any future assertion of state ownership or public rights, should circumstances change, or should additional information come to our attention. This letter is not intended, nor should it be construed as, a waiver or limitation of any right, title, or interest of the State of California in any lands under its jurisdiction.
