RECOMMENDATION

The Permit Resource and Management Department (Permit Sonoma) recommends that the Planning Commission adopt a resolution recommending that the Board of Supervisors adopt the proposed amendments to the County General Plan, and the proposed ordinance amending the Official Zoning Database.

EXECUTIVE SUMMARY

Permit Sonoma staff periodically identifies zoning and/or land use discrepancies. Any discrepancies and minor zoning and land use amendments are then brought forward as technical corrections to improve the accuracy of the Official Zoning Database (OZD). Minor zone changes and general plan amendments required as conditions of approval for lot line adjustments and subdivision approvals are also included as technical corrections to align the land use designations with the new parcel boundaries.

On June 8, 2010 the Board of Supervisors (Board) adopted the first set of technical corrections to the OZD, some of which required concurrent general plan amendments (known as Technical Corrections – Round 1). Since that date, the Board has adopted six sets of technical corrections to the OZD, some of which required concurrent general plan amendments, listed in Table 1 below.

Table 1: Technical Corrections to date

This current set of technical corrections is referred to as Technical Corrections - Round 9. The October 19, 2023 Planning Commission public hearing notice was published in the Press Democrat and mailed notice was sent to each owner of record of the subject parcels and all property owners of parcels within 300-feet of the subject properties. Technical Corrections - Round 9 includes proposed general plan land use and zoning amendments due to the reasons indicated below in Table 2.

PROJECT DESCRIPTION

The primary purpose of the proposed changes is to correct technical errors in zoning resulting from inaccurate manual transcription of data. The project is also intended to correct inconsistencies between zoning and General Plan land use designations. Minor or routine zone changes, such as those required by project conditions of approval, have also been included in the project. The proposed changes, as described below, will not result in any substantive change to County land use policy.

- A. Amendments to Zoning – Inadvertent Errors and Historical Corrections.** Correct zoning designations to resolve inadvertent errors and/or historical inconsistencies and restore the subject parcels to the correct zoning and/or land use.

- B. Amendments to Zoning – Required as Conditions of Project Approvals.** Implement minor zone changes required as conditions of approval for lot line adjustment and subdivision approvals.

DISCUSSION

A. Amendments to General Plan Land Use and Zoning Corrections to Historical Errors

1. 4860 Upper Ridge Road, Santa Rosa

a. 028-360-015, 4860 Upper Ridge Road

Current Zoning: RR B6 20 SR X

Proposed Zoning: No Change

Existing Land Use Designation: RR 10

Proposed Land Use Designation: RR 20

This correction pertains to a discrepancy on a single parcel in which the zoning designation is not consistent with the General Plan land use density. The base zoning is RR 20 (Rural Residential 20-acre per dwelling unit density) consistent with surrounding properties. However, the General Plan Land Use designation is RR 10, and the surrounding properties are RR 20. The discrepancy was identified by staff through review of a lot line adjustment on the property.

On further analysis, it was determined that the parcel was inadvertently redesignated with the RR 10 General Plan Land Use designation during the last General Plan Update due to a mapping error. Staff recommends a General Plan land use correction to apply the RR 20 Land Use designation to the ±4.3 acre-parcel to correct the error.

2. 175, 155, 135 Verano Avenue, Sonoma; LLA18-0044 and PLP19-0044

a. Lot 1: 127-071-005, No Address

Existing Zoning: R2 B6 8 DU, F2 RC50/25

Proposed Zoning: R3 B6 20 DU, F2 RC50/25

Prior Land Use Designation: UR 8

Proposed Land Use Designation: UR 20

b. Lot 2: 127-071-012, 175 Verano Avenue

Existing Zoning: K, F2 RC50/25

Proposed Zoning: R3 B6 20 DU, F2 RC50/25

Existing Land Use Designation: RVSC

Proposed Land Use Designation: UR 20

c. Lot 3: 127-071-013, 155 Verano Avenue

Existing Zoning: R3, F2 RC50/25

Proposed Zoning: K, NONE
Existing Land Use Designation: UR 20
Proposed Land Use Designation: RVSC

The three parcels were reconfigured by LLA18-0044 and assigned new assessor’s parcel numbers (APNs), and subsequently received approval for rezoning and General Plan amendments by PLP19-0044. Due to errors in the approval ordinance, Lot 3, the proposed hotel site was erroneously designated for residential, and Lot 2, the residential parcel, retained the visitor serving commercial designation. In addition, Lot 1, the access parcel was rezoned without a B-combining district designation. The proposed correction would correct the zoning and land use to correspond to the approved uses.

3. 31638, 31640 McCray Road, Cloverdale

- a. **Lot 1: 115-150-076, 31638 McCray Road**
Current Zoning: AR B8 (0.65 acres), PF (0.14 acres), F2 VOH
Proposed Zoning: AR B8, F2 VOH
Existing Land Use Designation: RR 5 (0.65 acres), PQP (0.14 acres)
Proposed Land Use Designation: RR 5

- b. **Lot 2: 115-150-075, 31640 McCray Road**
Current Zoning: AR B8 (1.1 acres), PF (0.7 acres), F1 F2 VOH
Proposed Zoning: AR B8, F1 F2 VOH
Existing Land Use Designation: RR 5 (1.1 acres), PQP (0.7 acres)
Proposed Land Use Designation: RR 5

- c. **Lot 3: 115-150-074, No Address**
Current Zoning: AR B7 (1 acre), PF (1 acre), F1 F2
Proposed Zoning: AR B7, F1 F2
Existing Land Use Designation: RR 5 (1 acre), PQP (1 acre)
Proposed Land Use Designation: RR 5

This correction pertains to a long-standing discrepancy on three parcels with split zoning and land use designations. The base zoning of the front of the three parcels is AR (Agriculture and Residential) and the General Plan Land Use designation is Rural Residential, which is consistent with existing uses and surrounding properties. However, the rear of the properties abutting County Park land has a zoning designation of Public Facilities and a General Plan Land Use designation of Public/Quasi-Public Facilities.

The discrepancy was brought to the attention of staff through a public inquiry. It was determined that a mapping error occurred before 1989, most likely when converting the paper zoning map books to digital maps. General Plan land use designation and rezoning are being brought forward to remove the PF zoning and PQP Land Use Designation from three parcels.

4. 18661 Lomita Avenue, Sonoma; GPA22-0071

a. Lot 1: 127-072-014, 18661 Lomita Avenue

Current Zoning: RR B6 3, F2 RC50/25 SR

Proposed Zoning: No Change

Existing Land Use Designation: RR 3

Proposed Land Use Designation: No Change

This correction pertains to a discrepancy on a single parcel in which the County’s Urban Service Area (USA) boundary and the corresponding boundary of the Valley of the Moon Sanitation District are not coterminous with the parcel boundary, excluding approximately 0.57 acres of the parcel. In 2009, parcels were merged into a single 2.63-acre parcel, but the USA boundary was not extended at that time to be coterminous with the new property boundary. The discrepancy was identified by the property owner. The Local Area Formation Commission and the Water District both confirmed in writing that the USA should be extended to include the entire parcel.

A General Plan land use correction (GPA22-0003) is being brought forward to extend the USA boundary to include ±0.57 acres and make the USA and Sanitation District boundaries coterminous with the parcel.

**B. Amendments to General Plan Land Use and Zoning
Required as Conditions of Project Approvals**

The County Subdivision Ordinance at Section 25-70.3(h) allows a lot line adjustment or subdivision approval between parcels of different general plan land use designations and/or zoning districts provided that a zone change and/or general plan amendment application is submitted to ensure that district boundaries coincide with the resultant property lines. Since the proposed amendments are routine, unopposed, and required as a condition of a prior project approval, they have been included as a part of these technical corrections for efficiency of processing.

Lot Line Adjustment LLA18-0027 involved an exchange of land between two legal lots previously under a single APN (047-173-011). A condition of approval of the LLA was to change the commercial base zoning on the smaller parcel to residential zoning (R1 B6 4 DU). Combining district designations would also be retained. Lot 1 is approximately 0.19 acres in area fronting Main Street, zoned LC HD LG/PNG SR, and land use designation UR 4. No change to the Main Street parcel is proposed. Lot 2 is approximately 0.13 acres in area, also zoned LC HD LG/PNG SR fronting Woodward Avenue. The zoning for Lot 2 is proposed to be changed to R1 B6 4 DU HD LG/PNG SR.

The requirement for a General Plan Amendment and Zone Change was included as a Condition of Approval for the Lot Line Adjustment. Application ZCE18-0024 was submitted by the property owner as required by the conditions of approval. Since the proposed amendments are routine, unopposed, and required as a condition of a prior project approval, they have been included as a part of these Technical Corrections for efficiency of processing.

Lot Line Adjustment LLA19-0049 involved a change in boundaries between two parcels. The boundary change added 15.54 acres of land to a 9.46 acre parcel and relocated a 4.50 acre parcel. This increase in parcel size created the potential for a subdivision of land that had not existed prior to the lot line adjustment. According to the County Subdivision Code, a lot line adjustment must not be approved if it increases overall subdivision potential, unless such approval is conditioned to require a rezoning to B7 (Frozen Lot Size) or other restrictive zoning. Lot 1 is an approximately 23-acre parcel zoned DA B6 10 SR VOH. Lot 2 is an approximately 6.5 acres DA B6 10 SR VOH. The zoning of both parcels would be changed to modify the B6 10 combining district to the B7 designation.

The requirement for a Zone Change to add the B7 combining district was included as a Condition of Approval for the Lot Line Adjustment. Application ZCE21-0005 was submitted by the property owner as required by the conditions of approval. Application ZCE21-0011 was submitted by the property owner to remove the HD Combining District from 0.11 acres of Lot 1 as required by conditions of approval for LLA21-0008. FINDINGS FOR RECOMMENDED ACTION

The proposed amendments are necessary to correct inaccuracies, resolve inconsistencies, and make other minor corrections and clarifications to the Official Zoning Database, to ensure the accuracy and reliability of the planning information on which the public relies.

The proposed amendments are consistent and compatible with the Sonoma County General Plan in that the changes include error corrections and minor zone changes being undertaken to ensure consistency between the General Plan and Official Zoning Database and to implement conditions of approval of previously approved projects.

The amendments to the General Plan land use designations and zoning designations to correct errors are exempt from the California Environmental Quality Act (CEQA) under CEQA Guidelines Section 15061(b)(3). It can be seen with certainty that there is no possibility that the project may have a significant effect on the environment because the proposed amendments to the General Plan and zoning will only correct historical errors. No change in the physical environment would result because no development is proposed as part of the adjustments to Land Use and zoning designations, and because the amendments only implement the existing regulations. These updates are needed to ensure the accuracy and reliability of the General Plan Land Use Map and Official Zoning Database.

Amendments to the General Plan land use designations and zoning designations to implement previously approved project conditions of approval were analyzed in compliance with CEQA as part of their originating project and at the time of project approval. These amendments are exempt from CEQA pursuant to CEQA Guidelines Section 15305 (Class 5), minor alterations in land use limitations, because the amendments merely realign the General Plan land use boundaries and zoning boundaries to be coterminous with adjusted property lines.
