EXTERNAL

Sonoma County,

Free Jamie Ballacino.

Shout out to Lenny Kravitz and Boomers like Marshall Behling who where spandex biker pants inappropriately. These narcissist boomers along with the loose and wild grey pony tail hateful flower children "ladies" have had their chance to be in charge of the county and world. Nice job loose grandma. Good job bully cuck gramps. Some wonderful job your generation has done for the world. Only these charmed boomers can afford houses. Only they have retirement accounts that have been propped up by the federal money press for decades at the expense of the next generations. Hey spoiled boomers, stop bullying the rest of us after you stole our futures. When will you all sit back and let the next generations take the lead. Guys like Lenny Kravitz and Marshall "stretch pants" behling should give it a rest and the county should stop empowering these entitled and privileged spoiled boomer generation.

There is only one way to defeat a lying bully.

Marshall and others have obviously been rallying vulnerable elderly neighbors to hate their cannabis neighbors and cause division in our on e harmonious neighborhoods. These guys are bullies. The old folks don't know how to use email and they have forwarded the reposes to their coaching from guys like "stretch pants" Behring and others. Guys like Behring like to bully their neighbors with lies and crap from their computer because if they attempted to bully physically they would it fair well to say the least. Guys like him are not honorable. They are little dramatic babies. They get their power to bully from the county and this uneven process that gives these jerks a soap box to stand on. Guys like creepy "stretch pants" behling love this stuff. What a loser!

The cannabis opposition is invariably WHITE BOOMER busybodies like little boy Marshall and his spoiled group of silver hair bicycle weirdos in stretch pants. Come on gramps! No one wants to see you in stretch pants you sicko.

It is really unfortunate how dishonest the cannabis opposition is.

There are only less than 50 vocal and threatening anti-cannabis people who have been discriminating against their neighbors and threatening the county for far too long.

There is no way to satisfy these jerks. It has nothing to do with any smell. It has only to do with the county giving this kind of perceived power to hateful and spiteful pathetic jerks.

When will the county figure out they are getting bullied by a group of 50 vocal jerks who hate and lie?

These are the same "concerned neighbors" who will threaten and intimidate Mexican immigrants when they are only hard working painters. These racist haters are the same people who are on these public record emails making up exaggerations and using scare tactic LIES.

My painter Lizardo came to me one day and said that a woman from my neighborhood was threatening and intimidating him when he was parking to come to work on my house. It was sad to talk with him about this topic. Neighbors like this are active in these public comments LYING about everything they can in order to bully me and my family.

We have NEVER even met this LYING old lady in our lives. NOT ONCE.

The Gutzmans are sloppy and smelly jerks who moved into my neighborhood a couple years ago. The are a lot like the neighbors from the Bloomfeild area. They just feel entitled to tell people what to do. Their property has donkeys and sloppy temporary crops that never seem to grow very well. Maybe they are so mean-spirited because they suck at growing plants. Maybe the girl's horses are bummed they have to carry that heffer. I don't know. But in any case we never did anything to bother these manipulative liars. We have never met them. Their lies keep getting progressively more ridiculous. Next comment Kim Gutzman sends will probably be more fiction that her cannabis neighbor called her an ugly old lady and drove a tank through her crappy horse stable and shot flamethrowers into her failed cornfield. Then she will continue her lies with no accountability further and further.

We have lived in this neighborhood for a long time. She just moved here.
We have NEVER even met or talked to this wacky old lady in our lives. NOT ONCE.
But she continues to lie on the public record about her cannabis neighbor who she names and
Hank Ford
Cannabis
DISHONEST DISCUSSION
Saturday, October 23, 2021 3:05:07 PM

defames.

When will the county figure out that this is who these people are????!!!!!!

These jerks know that if a 1000 foot setback is adopted that there will be zero eligible parcels and every small independent farmer will lose their livelihood. That is why they talk about 1000 feet. If the setback was already 1000 they would go for 3000. They will never be satisfied. 300 feet to a permitted residential structure is already too far. The smell is no worse (I think way better) than the crap all over the place on my fat lying spoiled neighbor's property.

300 feet setback is too far already. Don't try to appease these HATEFUL JERKS. Everyone should plant hemp next to neighbors like these.

I will tell you that the bully Gutzman lady is a LIAR.

I don't have to LIE to get my point across.

Maybe someday the county will stand up to these kind of people who typify the 50 loud and angry old people who have been given the power to destroy so many hard-working young family cannabis farmers and make them live like they are in HELL in SONOMA COUNTY.

It is SICK what the county is allowing to be done to honest good cannabis people.

Chapter 38 was passed by planning and it was a step in the right direction after years of work by stakeholders. After that intense effort and approved compromise was PASSED for APPROVAL by the planning commission with 3 extended public meetings and comments the BOS threw it out like it was worthless. Now the cannabis families are having the hardest year in the industry to stay alive at their farms while the hateful 50 jerks dominate the discussion about 1000 setbacks, smell, water, roads, or any other double-standards that they can propose.

When will someone stand up for the cannabis farmers? Why do we get treated like this?

Is it so the politicians save face for the 50 threatening and manipulating racist fat LIARS?

Is it so that county counsel can ensure no lawsuits by 50 threatening and often racist LIARS?

From the top players down to the trimmers and support staff the cannabis industry is being damaged so bad by this whole mess. We have a tough industry and difficult challenge to success without this extra garbage going on forever. That's why anyone paying attention will see that all the cannabis supporters and operators have dropped out of the new ordinance "crafting" process. The spiteful 50 jerks including pothole lawyers are having the time of their lives applying this torment.

Look online and you will see that some of these washed up old lawyers are pothole lawyers who sue the county when old folks cant ride a bike on rural roads without falling in a pothole. Ambulance

chasers turned cannabis haters.

Look into this topic and you will see crowd-funded legal funds that get a lot of money for hacks like these pothole lawyers to threaten the county and use intolerance and discrimination.

I have gotten direct emails from some of these types who disagree with my PUBLIC comments. They really like to bully people. Stop emailing me Grandma. Just because your family wont talk to you anymore doesn't mean I care to speak privately with you. You suck. No one loves you for good reason. Don't blame me for your disgusting background and "mistakes from the sixties". Its gross and I feel dirty thinking about it. Why do you feel the need to be so vulgar? STOP EMAILING ME. You are NOT my friend you wacko.

The county has "entitled" this "privliedged" group of 50 jerks and anyone they can initiate to be the most hateful and spiteful group seen in this county.

If the county hosted a "visioning session" and had a discussion about finally solving the problem with cannabis in the county and it was seriously proposed that the county should consider lynching or gassing cannabis operators, a lot of the cannabis opposition would be in support. Give them a page of the next powerpoint presentation and let them believe it is serious.

These cannabis haters are haters in general and if they aren't picking on cannabis operators they will be racists towards Mexicans, intolerant to lifestyles and identities, and other mean-spirited things.

The county has made MONSTERS out of the 50 LIARS and washed up lawyers. The cannabis family farms are left to defend themselves for years of aggressive manipulations, defamation, intimidation, racism, etc.

It is time for the county to push back against the bullies or the county is the one to blame for it all. Please take a look at the fine work done in CHAPTER 38. That is the last time the cannabis community was engaged in this process. Since then the 50 jerks have threatened the county enough. Push them BACK and stand behind your own PLANNING COMMISSION APPROVAL that recommended CHAPTER 38 for approval. PRMD and staff has ZERO bandwidth for any CUPs for cannabis farming. The CUP process is tragically BROKEN. How can anyone believe a local family heritage farmer could withstand 5 years and \$100k+ of expense on top of the lease or mortgage? How can the county politicians and policy makers get to say that they want to protect the family farmers and then let this all happen for years on end? When politicians say that they should be held accountable when their actions and inaction has empowered the most divisive 5 years in this county in decades at the expense of the small local farmers. All of a sudden our worst hateful grandparents who we try to tolerate are now the ones who are making the policy and threatening our elected leaders to apply double standards that will damage their younger neighbors. When will the county stick up for the local cannabis farmers before there

are none left? Why do you give so much power to the mean and racist grandparents who never adapted and are stuck in their hateful ways against others who do not think or live like them?

Maybe we should allow these mean grandparents to decide how we treat gay marriage. How about we let these 50 mean old folks tell us how many genders there are. Let's ask great grandpa if there should be blacks and Mexicans in the same schools as whites. What about abortion? Clearly, grandma and grandpa hater should not be the ones we tap for these tough policies. It's is totally ridiculous how the county has empowered these jerks. It's not healthy for our communities and it's not healthy for these old folks. Let them rest.

1000 feet is stupid. The county has stated that this would eliminate all farms. That's why hateful grandma wants it to be 1000 feet.

Smell is stupid. Why does hateful grandma's farm get to smell like manure all the time and there are zero setbacks? Trying to appease intolerant OLD LIARS and fat girls who ride horses is stupid. It's about time the county takes responsibility for what it has done to harm the local cannabis farmers by empowering the intolerant 50 jerks.

God Bless all the cannabis farmers and local businesses that are being damaged by these BAD PEOPLE.

To all you bully grandmas and LIAR old folks out there, please don't email me direct. You have been told your whole lived that everyone should really value your opinions but I don't value your opinions at all. I think they are worthless. So you can either spew your lies and intolerance in the PUBLIC forum like everyone else or you can shove it where your dark sun doesn't shine OK? If you send me direct emails I will add your email to every spam list I can find online and then I will give it to Russian hackers so you show up on Hunter Biden's laptop next to the pictures of his beautiful (not hookers) girlfriends doing crack with him while they sell political influence. Sound good Gram?

The cannabis farmers and operators are SICK of being pushed around, bullied, and discriminated against. Don't act surprised that we have to start fighting back and telling it STRAIGHT. Don't cry to me that your feelings are hurt.

Don't play the (EXTREMELY PLAYED-OUT) victim role w me. Shove it!

We have had ENOUGH.

Have a beautiful day everyone,
Disgusted Citizen

Hello Kim,

I am copying the Cannabis email in hopes they can reply to your concerns. The desk you reached sets up suppliers to pay for goods and services received by the County of Sonoma.

Here is the auto reply from that email:

This is an automatic reply. Thank you for your email. Please allow up to 5 business days for a response.

Visit the Cannabis Program website for more information:

<https://sonomacounty.ca.gov/administrative-support-and-fiscal-services/county-administrators-office/projects/cannabis-program>

For information regarding the Cannabis Program Update and EIR, visit:

<https://sonomacounty.ca.gov/administrative-support-and-fiscal-services/county-administrators-office/projects/cannabis-program/cannabis-program-update-and-eir>

Thank you,
ACTTC

Subject: Cannabis

To Whom It May Concern:

We are tired of cars and trucks speeding up and down our private dead end easement road creating noise and dust 24/7. We are woken up by speeding motorcycles 24/7. This operation should be in an industrial area not a neighborhood.

We live in fear. We are concerned about becoming a part of a shoot out when robbers can to steal cannabis and cash. We live in fear of the cannabis grower that shoots guns and walks the neighborhood in a rage threatening neighbors.

Our road is only 15 feet wide. When a shoot out occurs like it did on Hessel where will we hide. Ambush on the private easement with homes 10 feet away is not something we want. A cannabis robbery happened in Petaluma where a person was run down with a car and 4 robbers stolen his money satchel in April

2022. This is what cannabis is bringing to our community and we don't want it.

The stink of cannabis is unbearable.

WATER????????????

Cannabis growers are not following the county regulations and nothing is done about it which is why the complaints are endless. The county does nothing so all of my complaints go to the state. I read about the grower that owed 1.2 million in taxes and just disappeared. I paid my taxes.

15 homes surround this grow with regulations not followed and our lives turned upside down. The majority of people in the county don't want cannabis growing within a mile of their homes, quoting the Press Democrat. Why are you disregarding what the majority of the public want?

Subject: Fwd: Marijuana and Mass Murder

Sonoma County Supervisors, and Mr. Smith,

I've sent this before, if you haven't read it yet you should, see attached and link below.

Practically every mass shooter in America has been a marijuana user. The reports attached and below chronicle this fact. The latest mass shooter tragedy in Uvalde, TX was by Salvador Ramos, a young man who apparently reported how he hated his mother and grandmother for limiting his marijuana use.

I'm not sure why any of you think it's a good idea to promote mass marketing marijuana use and making Sonoma County some "special" safe haven for the hundreds of commercial and retail marijuana operations you are promoting.

Your policy is the most ill considered, reckless, irresponsible and completely mindless public health policy ever implemented in the history of Sonoma County, and all of America.

You should all be very ashamed of creating this policy and your part in pushing it.

Moira Jacobs

Southern California, Scott Chipman [619 990 7480](tel:619-990-7480) scott@chipman.info

Northern California, Carla Lowe [916 708 4111](tel:916-708-4111) carladlowe@aol.com

On May 24, 2022, Salvador Ramos fatally shot nineteen students and two teachers and wounded seventeen others at Robb Elementary School in Uvalde, Texas. Earlier that day, the perpetrator shot his grandmother in the face, severely

wounding her. It appears Salvador is likely another mass murderer who used pot. He said he hated his mother and grandmother who restricted his marijuana use.

For over 5 years AALM has been warning about the connection between marijuana use and mass murder. This warning was given to US Attorney General Merrick Garland in March. Our [letter](#) received no response. Please refer to [exhibit 5](#) for a list of mass murderers who were also marijuana users.

In the wake of recent mass shootings and mass murder events, AALM demands toxicology reports of shooters be released to the public.

- [Marijuana use and psychotic violence go hand-in-hand.](#)

More Sources:

- In 2007 the prestigious medical journal Lancet recanted its previous benign view of marijuana, citing studies showing “an increase in the risk of psychosis of about 40 percent.”
- A seminal long-term study of 50,465 Swedish army conscripts found those who had tried marijuana by age 18 had 2.4 times the risk of being diagnosed with schizophrenia in the following 15 years than those who had never used the drug. Heavy users were 6.7 times more likely to be admitted to a hospital for schizophrenia.
- Another study, of 1,037 people in New Zealand, found those who used cannabis at ages 15 and 18 had higher rates of psychotic symptoms at age 26 than non-users.
- A 2011 study in the British Medical Journal (BMJ) of 2,000 teenagers found those who smoked marijuana were twice as likely to develop psychosis as those who didn't. Another BMJ study estimated that “13 percent of cases of schizophrenia could be averted if all cannabis use were prevented.”
- In 2014, people who had cannabis use disorder made up about 1.5 percent of Americans. But they accounted for eleven percent of all the psychosis cases in emergency rooms—90,000 cases, 250 a day, triple the number in 2006.

- The National Academy of Medicine found in 2017 that “cannabis use is likely to increase the risk of developing schizophrenia and other psychoses; the higher the use, the greater the risk.” Also, that “regular cannabis use is likely to increase the risk for developing a social anxiety disorder.”
- A [Study](#) showed cases in which marijuana led to unnecessary violence, health risks, and, in many cases, both.
- In a Secret Service study (pg 13) over [half](#) of the attackers had a history of illicit drug use and/or substance abuse. This abuse, which included alcohol and marijuana, was evidenced by such factors as the attacker receiving treatment for the abuse, suffer legal consequences, or having significant problems in their personal lives stemming from the abuse.
- [Marijuana and Psychosis](#)

AALM calls on public officials to release the toxicology reports on all mass murderers.

Below is a shortlist of some of the well-known murderers who were pot users. Most often toxicology reports are not made public. Perpetrators’ marijuana use is often discovered via interviews with acquaintances, military records, or some other secondary source.

Darrel Brooks, The Waukesha Wisconsin driving rampager was a user of marijuana with domestic abuse and multiple episodes of violence in his past. He had more recently been caught with meth which is a natural progression from marijuana. On his twitter profile he describes himself as a stoner and avid user of pot.

Ian David Long Killed 13 people on November 7, 2018, in Thousand Oaks, California, United States, at the Borderline Bar and Grill, a country-western bar frequented by college students. Toxicology later revealed he had marijuana in his system

Nikolas Cruz On February 14, 2018, opened fire with a semi-automatic rifle at Marjory Stoneman Douglas High School in Parkland, Florida, killing 17 people and injuring 17 others. [He blamed his marijuana use for his actions.](#)

Manchester terrorist Salmon Abedi blew himself up and killed 22 in the United Kingdom on 22 May 2017. Abedi was a [pot-smoking university dropout.](#)

A toxicology report on Devin Patrick Kelley, who shot and killed 26 at a church in Texas, revealed marijuana. November 5, 2017

Diagnosed with cannabis-induced psychosis, Satoshi Uematsu killed 19 handicapped people in Japan and injured many others. July 26, 2016

Nice terrorist Mohammed Bouhlel smoked very strong weed in high school, and had his first psychotic break at 19. July 14, 2016

Omar Mir Seddique Mateen was an American mass murderer and domestic terrorist who murdered 49 people and wounded 53 others in a mass shooting at the Pulse nightclub in Orlando, Florida, on June 12, 2016, before he was killed in a shootout with the local police. He was an avid pot user.

Robert Dear, Planned Parenthood shooter, November 27, 2015. He was described as a "["marijuana newcomer"](#) by neighbors brought to Colorado by the promise of legal weed.

Noah Harpham, was in mania when he shot three people in Colorado Springs. [He had marijuana metabolites in his urine at the time of his death](#) in 2015.

Eddie Routh, veteran with PTSD, smoked pot the morning before he killed Chris Kyle Chad Littlefield. February 2, 2013

James Holmes, Aurora shooter used to smoked

weed behind his apartment constantly. 2012

Jared Loughner killed six and injured many in Tucson, AZ, 2011. He was a [habitual pot user](#).

Oklahoma City bomber Timothy McVeigh killed 168 in 1996. He experimented with marijuana and meth.

"Senseless violence and mass murders are in the news and in the minds of Americans once again. Mental health problems are also considered a potential contributing factor. With the dramatic increase in the potency and use of marijuana, senseless violent acts are and will become more and more common."

- Carla Lowe, President of AALM

"The link between marijuana use and psychosis, depression, and schizophrenia has been known for decades. Yet, the general public is not being informed."

-Scott Chipman, Vice President of AALM

Subject: AALM Action Nat'l Call 6 PM PDT 667-770-1133:249927#

Good evening, All

Happy May Day! If you live nearby, I would have brought you roses from our garden today!

First AALM Action call of the month is Monday, May 2, 6 PM PDT. Join us, and invite others to join. Everyone has a chance to talk a bit...what's going on in your area, how we might help.

REMINDER: Our AALM *Risks of Marijuana Use* 20 pg + citations booklet will be going to print this week. It will be the most comprehensive compilation of well documented information in the country. You know that David Evans does thorough and easy to understand writing.

Please send me your street address. I want to give a complete mailing list to our printer by the end of the week.

Hope to hear your voices Monday night!

Carla
