Subject: UPE19-0072 - Written request for delay/continuance of 3/28 BZA hearing

Importance: High

Good afternoon Cecily,

This is a follow-up to my phone conversation with Adam Sharron at PRMD regards the UPE19-0072 application project. A voice mail message from Ms. Nancy Cadena, residence at 1321 Spring Hill Road, expressing a Traffic Safety concern was brought to my attention mid-day yesterday. I had the opportunity to speak to Ms. Cadena just before I start drafting this email to you. Ms. Cadena has a legitimate concern worth looking into it further. I am planning to review the files, visit the site, arranging and scheduling a meeting on site with Ms. Cadena and Adam Sharron next week to evaluate and address Ms. Cadena's concern.

I would greatly appreciate you (You, Your staff, and BZA) considering my request for delaying/continuing the scheduled March 28th BZA hearing to a future date to enable SPI evaluate and address Ms. Cadena's traffic safety issue.

Again, your attention to my request is greatly appreciated. Meanwhile, please let me know if you have questions or would like to discuss it further.

Best regards,

Nader M. Dahu
